NOW READY.

THE CHRONICLE AND DIRECTORY  
FOR CHINA, JAPAN, SOUTHERN ASIA,  
AND THE CHINA DIRECTORY.  
With which is incorporated  
THE CHINA DIRECTORY.

This is the  
THIRTY-FIRST ANNUAL ISSUE,  
and will be found as usual, to show an advance  
in preceding years both in fulness and accuracy  
of information.

The DIRECTORY covers the whole of the  
ports and cities of the Far East, from Peiping to  
Vancouver, in which European reside.

Not only is it the most complete and up-to-date  
in each port, it can be met with each Colony,  
Port, or Settlement; it is printed by a DESCRIPTIVE  
SECTION, carefully revised each year, some of which  
will serve as accurate Guides for the Tourist,  
giving every detail in connection with the places,  
Tourism, Topography, &c., &c.

The information contained in the Descriptions  
also allow suffice to fill the pages of the Directory,  
consisting of over EIGHTY highly interesting  
articles, packed with facts concisely set out, and  
containing statistics of the Trade of each Country  
and Port.

The work contains Directories and Descriptions  
of:

CHINA—  
Peking, Kinkiang, Tsinanfu  
Nanking, Tsinan  
Port Arthur, Tsinan  
Tientsin, Ichang, Canton  
Taku, Chinkiang, Whampoa  
Canton, Ningpo, Kwinkow  
Wen-hai, Wei-ho, Loo-poo  
Shantung, Winkow, Ho-ho-kow  
Chinkiang, An-chow, Pukow  
Nanking, Tsinan, Lungchow  
Wu-hu, Keeling, Mongolian  
EASTERN SIBERIA

Courts of United States in China; Rules

of Court of Consuls at Shanghai; Chinese

Passenger Act; Port Regulations.

The CHRONICLE and DIRECTORY, al-

though printed in smaller type than formerly,  
and in a more compact and convenient manner,  
contains every year three parts.

It was very universally pronounced to be  
the cheapest work of the kind anywhere published,  
and although enlarged and improved in every  
way the price remains the same, notwithstanding  
the fall in exchange.

The size is Royal Octavo. Complete, with  
Maps and Plans, pp. 1123, 35. Directory only,  
pp. 78, £2.

It is published at the

Office of the Hongkong Daily Press,  
and can be had from, and Advertisements sent

and I have accordingly advised your manager to despatch me to Hongkong.

**SUMMARY.**  
The result of my examination shows conclusively that First: There is no mineral at present exposed upon the Company's property that can be worked with profit; and Second: That the indications are most unfavorable for the recovery of valuable ore bodies by further exploration.

In view of the foregoing facts I must advise the suspension of all work upon the Company's mines. What then is to become of all the expensive railway and milling plants constructed by the Company? For the purpose for which these plants were originally erected they are of little value. It has been suggested by the Company's Manager, Mr. H. H. Dixon, that certain parts of the milling plant might be utilized in connection with a "copper smelter" which he has advised the Company to erect at Corro Blanco. You see, I believe, in possession of the data upon which Mr. Seymour bases his recommendations in this regard, that Mr. Seymour has made a thorough investigation of the plan he recommends, and his opinion is entitled to serious consideration.

Unfortunately my examination did not embrace the erection of the proposed customs smelter, and I am therefore not prepared to express an opinion beyond stating that the project is worthy of consideration. Whether or not Corro Blanco would be as advantageous a point as Guaymas, I am still unable to determine. The Sonora Bond remains likewise to be determined.

The ores that might be supplied by the Company's mines are but little known in the consideration of this subject. These ores are moreover as previously stated not gold and the ones, but copper, are not to be compared with others. This is partly an economic point, but I have said there is nothing to justify the creation of a smelter upon the probable output from the Minas.

As regards the disposition of the Company's railway: Mr. Seymour has suggested that it be extended to a line to be constructed between Torreón Station and the Don Juan River and the mining district of Pánuco about 12 miles distant. At my suggestion he will write fully as to this. There is at present considerable traffic between Torreón Station and Pánuco, and the cost of the railway utilizing the Company's plant would not be great, as the route would be over a flat level country. The project must be considered, however, I cannot advise you definitely without an opportunity of making a thorough examination of the many conditions that invest this subject.—Yours very truly,

(Signed) JOHN HENRY HAMMOND.

CATASTROPHE, HAT FEWER, CATASTROPHE DEATHS—A NEW HORSES TREATMENT.—Sufferers are advised that when these diseases are contagious, or that they are caused by the presence of living parasites in the living membranes of the nose and oesophageal tubes.

Microscopic research, however, has proved this to be a fact, and the result is that a simple remedy has been formulated whereby these disease causes are rapidly and permanently cured. For ample applications made by the nation's best physicians. A pamphlet explaining this new treatment is sent on receipt of 2d. stamp by A. HORTON DIXON, 43 and 45, East Street, Toronto, Canada—Scientific American.

(2d)

A REMARKABLE BANKRUPTCY RECORDED.

Some idea of the state of trade in the colony of Victoria last year may be gathered from the remarkable figures given below. The population of Victoria, it may be remarked, is just over a million. A return has been published by the officers of the Insolvency Court showing the numbers and particulars of schedules filed in the master's office by insolvent debtors 1892, and of those filed by persons in mat' comp'tions with their creditors or liquidators by arrangements with their creditors.

During the year there were in Melbourne 452 insolvencies, and 7 insolvent estates were transferred to the Melbourne court from country courts, making a total of insolvent estate dealt with in the metropolitan courts of 509. Of the subsequent 418 were voluntary and 44 compulsory.

The following table gives the total amounts of liabilities, assets, deficiencies, and surpluses in insolvencies, compositions, and liquidations:—

Lia.	Assets.	Def. Surplus.
Insolvencies	2,101,383	1,372,423
Debtors (New)	5,078,000	1,000,000
Liabilities	641,751	441,337
Total	7,811,134	8,067,764
COMPOSITIONS.	9,754	9,754

The following table shows the amount of the liabilities in the estates in which composition schedules were filed and the rate paid in the 2 to creditors:—

Liab.	Rate in %.	Liab.	Rate in %.
235,601	4	65,900	1
1,632,357	4	1,632,357	1
10,775	2	8,775	1
17,438	3	16,367	1
43,613	6	34,483	1
63,607	7	33,344	1
32,768	1	32,768	1
These were altogether 77 compositions, but among them were three partnership estates in which the partners paid a composition in addition to that of the joint estates, making in all 80 compositions with creditors.			
From 1871 to 1882, the number of compositions made with creditors were as follows: 1871, 2; 1872, 7; 1873, 4; 1874, 2; 1875, 1; 1876, 5; 1877, 5; 1878, 1; 1879, 5; 1880, 1; 1881, 1; 1882, 2; 1883, 2; 1884, 2; 1885, 1; 1886, 0; 1887, 1; 1888, 0; 1889, 1; 1890, 0; 1891, 2; 1892, 0.			

#### THE COST OF SILVER.

The following is extracted from a New York paper as to the cost of extracting silver in the United States, which will be interesting at the present time. It states:—

One of the most effective parts of Senator McPherson's speech on the silver situation was his citation of statistics on mineral industries collected from the last census. These were gathered and collated under the direction of Dr. Ivan C. Michel, a statistician of acknowledged competence, and for silver, it is said, the inquiries in regard to the production of 41,203,297 ounces—or more than four-fifths of the entire product of the country for the year under investigation, 1888. The method followed was the sample one of taking the total returns of the miners for silver actually sold from their total expenditure in all sorts, and dividing the remainder by the number of ounces to show actual cost per ounce.

Summarized, the results show that Arizona produced 1,847,036 ounces at a cost of \$95.385, or a little more than 52 cents an ounce. California \$6,052,000, or 10 cents an ounce. Colorado 18,416,361 ounces at a cost of \$570,193, slightly more than 30 cents an ounce; Montana 18,497,861 ounces costing \$5,300,350 or 41 cents an ounce; and Utah 9,969,933 ounces at a cost of 30 cents an ounce. This makes the average cost per ounce for the year \$1,41,000,000, a little more than 37 cents, yet the Government is buying 4,000,000 ounces monthly at 34 cents. Senator McPherson declared that this proved silver mining to be the most profitable of all the industries of the United States, "even if prices are measured by the highest estimates of cost, and all losses and expenses are not even known."

It is to this Senator McPherson that his noble hand had been making a little investigation of the cost of silver. In fact he had been at it for six months with the aid of a "committee." He was not yet prepared to give out his final figures, "but one thing is certain, that according to the committee all engaged in the business, the ounce of silver costs more than \$1.23." This stretching out of the cost of silver to the public eye, the owners are losing 20 cents an ounce as all they sell the Government, he arrived at by reckoning in all the mines in which no silver had ever been found, all the wasted labour and lost expense that had gone into silver mining from the same source in the country. That, maintained, was the real cost of silver, and the more the "harvesting of the crop," which he intended might cost more than 30 cents an ounce.

LIVER COMPLAINTS.—Dr. King's Dandelline and Quinine Liver Pills, without Mercury, are a potent remedy; remove all Liver and Stomach Complaints, Biliousness, Headache, Boil, &c., Shoulder Pains, Heartburn, Indigestion, Constipation. Made only in London. Sold everywhere.
